PROCEEDINGS
of the
FIFTY-THIRD ANNUAL CONFERENCE
AMERICAN ASSOCIATION OF BOVINE PRACTITIONERS

September 24-26, 2020
Louisville, Kentucky

Editor
Robert A. Smith, DVM
3404 Live Oak Lane
Stillwater, OK 74075
Tel: (405) 372-8666
Fax: (405) 743-8422

Advertising Representative
J. T. O’Brien & Assoc.
12118 Nieman Road
Overland Park, KS 66213
Tel: (913) 579-4084

Executive Director
K. Fred Gingrich II, DVM
1130 East Main St., Suite 302
Ashland, OH 44805
Tel: (419) 496-0685
Fax: (419) 496-0697

Publisher
VM Publishing Company
205 W. 7th Ave., Suite 201
Stillwater, OK 74074
Tel/Fax: (405) 533-1883
AABP OFFICERS

President-Elect
CARIE TELGEN
DVM
Greenwich, New York

Past President
GLENN M. ROGERS
DVM
Aledo, Texas

District 1
ELIZABETH H. BROCK
DVM
St. Albans, Vermont

District 2
RANDALL H. HINSHAW
DVM
Rockingham, Virginia

District 3
LEE JONES
DVM
Tifton, Georgia

District 4
MARK E. HARDESTY
DVM
Maria Stein, Ohio

District 5
WILFRED D. SCHULER
DVM
Hazel Green, Wisconsin

President
CALVIN BOOKER
DVM
Okotoks, AB, Canada

Vice-President
PAT GORDEN
DVM
Ames, Iowa

Executive Director
K. FRED GINGRICH II
DVM
Ashland, Ohio

2019 - 2020

JAVMA, February 1, 1969 had a report on the First Annual AABP Convention at the LaSalle Hotel, Chicago on November 24-26, 1968. Hitherto, the annual meetings had been held in conjunction with the AVMA Annual Meetings. The report stated:

“This was the first convention in recent years where a bovine practitioner could elbow to the right or to the left and everywhere find a newly made friend to talk to about cattle. Hoping and praying for at least 200 registrants, the AABP officers were delighted to find themselves hosts to more than 350 veterinarians. Exhibitors, speakers and guests swelled the attendance to 425.

One of the highlights of every AABP Convention has been the Practice Tips Session. At the Chicago meeting there were lively descriptions of novel gadgets and procedures.

Dr. Joe Knappenberger, AVMA President, was a guest speaker. He spoke of the practicing veterinarians’ role in the future, trends which would lessen the physical strain on the practitioner by using improved techniques and specially trained assistants. He defined the future role of veterinarians as supervisors instead of skilled laborers.

Dr. Knappenberger expressed concern over the sluggishness of new product development, due to the stringent regulations imposed by the Food & Drug Administration and the Veterinary Biologicals Division of USDA. He was also concerned with the diminishing percentage of veterinarians engaged in food animal practice. He urged members to take a direct interest in the activities of their state’s representative in the AVMA House of Delegates.

AABP and AVMA counterparts join forces at AABP’s first annual meeting held in Chicago, Nov. 24 -26, 1968. Left to right: Dr. Don Williams, Ada, OK, president of AABP; Dr. Joe Knappenberger, Olathe, KS, president of AVMA; Dr. R. A. Die, Follett, Texas, president-elect of AABP; and Dr. John B. Herrick, Ames, IA, president-elect of AVMA Dr. Die took over as president of AABP for 1969.

• On-farm calf assessment and practical fluid therapy
  Andrea S. Lear .......................................................... 344

• Field necropsy and diagnostic sample submission
  Dee Griffin ................................................................. 346

• Packaging and shipping diagnostic samples
  Dee Griffin ................................................................. 353

RESEARCH SUMMARIES
• Associations of serum calcium and subclinical hypocalcemia at calving with productive, reproductive and health outcomes in multiparous Jersey cows
  A. Valdècabras, N. Silva-del-Río .................................................. 356

• Effect of preweaning plane of nutrition on abomasal dynamics in Holstein calves

• Embryo quality and development in sub-fertile dairy cows
  C. Reisenauer, V. Kasimanickam, R. Kasimanickam ........................................ 358

• Effect of hyperketonemia on circadian patterns of blood metabolites and milk predicted constituents in dairy cows
  C. R. Seely, K. D. Bach, D. M. Barbano, J. A. A. McArt .......................... 359

• Evaluating the ability of quarter and cow-level somatic cell count to diagnose intramammary infections with non-aureus staphylococci (NAS) and Corynebacterium species
  C. E. Jeffrey, J. W. Barlow .................................................. 360

• Inter-observer agreement between veterinarians and dairy farm caretakers: a hierarchical survey of antimicrobial use decisions
  R. Portillo-Gonzalez, J. A. Pempek, S. Locke, A. M. Dietsch, R. V. Pereira, G. Habing .................................................. 361

• The effect of pre, pro and symbiotic supplementation in milk to pre-weaned Holstein heifers on body weight gain and health outcomes
  P. Lucey, I. Lean, H. Goldner, S. Aly, H. Rossov .................................................. 362

• Retrospective analysis on timing of non-infectious heart disease deaths during feeding period in US fed cattle

• Transcriptomic profiling of BRD-attributed mortality in stocker cattle identifies active inflammatory and antiviral pathways at arrival
  Matthew A. Scott, Amelia R. Woolums, Cyprianna E. Swiderski, Andy D. Perkins, Bindu Nanduri, David R. Smith, Brandi B. Karisch, William B. Epperson .................................................. 364

• Alternative feed additive strategies to reduce antimicrobial use in finishing cattle
  J. R. Bourék, K. K. Kreikemeier, D. U. Thomson .................................................. 365

• Mixed methods study investigating the effect of veterinary experiences prior to and during veterinary school on job satisfaction in mixed practice
  P. M. Gibbons, J. Roberson, S. Robertson, R. Pierce, K. Fogelberg .................................................. 366

• Logistic analysis of responses to the 2018 survey of AABP members about gender bias
  G. N. Gilliam, B. J. White, V. R. Fajt, S. A. Wagner, M. D. Apley .................................................. 367

• Failure of a novel surface polysaccharide targeting vaccine to prevent Tritrichomonas foetus infection in beef cattle

• The effect of vaccination with a Mannheimia haemolytica subunit vaccine on milk yield in lactating dairy cows
  Michael W. Overton, Mark A. Armfelt .................................................. 369

• Determining associations of bovine respiratory disease intertreatment interval with case fatality risk and factors influencing intertreatment interval
  Brad White, David Amrine, Robert Larson, Brian Lubbers, Kristen Smith .................................................. 370

• Effect of vaccination of beef cows during gestation on transfer of passive immunity and clinical protection of calves against experimental challenge with BRSV
  Manuel F. Chamorro, David Martinez, Amelia Woolums, Ricardo Stockler, Thomas Passler, Scott Silvis, Gage Raithel, Paul H. Walz .................................................. 371

• Surveillance of Anaplasma marginale in Arkansas beef cattle herds

• Utilizing leukocyte differentials at arrival to predict death in feedlot calves
  N. G. Bate, F. G. Dantas, M. E. Hockett, A. H. Tsio, D. S. Noel .................................................. 373

• Average daily gains and response in protein intake in beef replacement heifers with persistent subclinical Theileria orientalis Ikeda genotype infection
  S. R. Guynn, K. K. Lahmers, J. F. Currin, S. M. Todd, A. A. Carbonello, L. L. Hungerford .................................................. 374

• Effect of perioperative penicillin G procaine on bovine castration wound infection rate
  K. M. Still Brooks, J. Schleining, T. A. Brick .................................................. 375

• A survey to identify factors associated with veterinarian and administrative staff turnover in rural veterinary practices
  G. N. Gilliam, B. J. White, C. C. Dodd .................................................. 376

• Thematic analysis of free-text responses to the 2018 survey of AABP members about gender bias
  V. R. Fajt, S. A. Wagner, D. R. Smith, M. D. Apley .................................................. 377

• Blood calcium as a prognostic indicator of left-displaced abomasum postsurgical correction success
  K. D. Bach, J. A. A. McArt .................................................. 378

• Association of subclinical hypocalcemia dynamics on dry-matter intake, milk yield, and plasma mineral status during the periparturient period

• Calf age does not affect test sensitivity or specificity for detection of BVD virus in New Zealand
  S. McDougall, J. Rhodes .................................................. 380

© Copyright American Association of Bovine Practitioners; open access distribution.
• A randomized control trial to evaluate propylene glycol alone or in combination with dextrose as a treatment for hyperketonemia in dairy cows
  M. B. Capel, K. D. Bach, I. D. Knecht, K. J. Koebel, S. Mann, J. A. A. McArt ................................................................. 381
• Identifying barriers to successful dairy cow lameness management using stakeholder focus groups
  E. Wynands, B. Ventura, S. Roche, G. Cramer ................................................................. 382
• A controlled trial assessing the effects of gradual cessation of milking prior to dry-off on the risk of new intramammary infection and well-being in dairy cows
• Investigation of the relationship between method of processing recycled manure solids bedding and udder health and production on Midwest dairy farms
  S. M. Godden, F. P. Mosca, E. Royster, B. Crooker, J. Hadrich, P. Raynor, R. Singer, K. Janni ................................................................. 384
• Investigation of the relationship between method of processing and bacteria counts in ready-to-use recycled manure solids bedding on Midwest dairy farms
• Oral electrolyte composition and fluid meal type influence the abomasal environment in Holstein calves
• Effects of plane of nutrition and as-fed milk replacer temperature on abomasal dynamics in Holstein calves
• Efficacy of a stabilized liquid potassium sorbate preservative to reduce bacterial proliferation in colostrum or tank milk stored by refrigeration or at room temperature
  S. M. Godden, E. Royster, J. Timmerman, N. O’Sell ................................................................. 389
• The effect of early vs late pairing on measures of dairy calf health, performance, and behavior through weaning
  Whitney A. Knauer, Sandra M. Godden, Natalie Barka ................................................................. 390
• Pharmacokinetics of cannabidiolic acid in cattle following oral dosing of industrial hemp (Cannabis sativa)
  M. D. Kleinhenz, G. Magnin, Z. Lin, J. Griffin, K. E. Kleinhenz, A. Curtis, M. Martin, J. F. Coetzee ................................................................. 391
• Passive immunity and colostrum management practices on Ontario dairy farms and auction facilities: A cross-sectional study
• Association of uterine fluid metabolites with the occurrence of metritis in dairy cows: A case-control study
  L. S. Caixeta, Y. Guo, V. F. Calles, C. Rocha, M. Cheeran, M. McCue, C. Chen ................................................................. 393
• Efficacy of a second intrauterine cepaparin infusion in dairy cows for the treatment of purulent vaginal discharge and endometritis
  J. Dubuc, V. Fauteux, G. Boisclair ................................................................. 394
• Dairy cattle on-farm euthanasia: A survey of Canadian veterinarians’ practices
  Marjolaine Rousseau, Luc DesCôteaux, José DenisRobichaud, Martine Denicourt, Marianne Villettaz-Robichaud, Marie-Eve Paradis, Morgane Martel ................................................................. 395
• Clinical trial to determine efficacy of copper oxide wire particle administration to decrease gastrointestinal nematode concentrations in adult alpacas
  M. Wright, A. Needleman, J. Schaffer, R. Videla, A. Lear ................................................................. 396
• A survey of coccidia shedding among small ruminants on St. Kitts and the Appalachian region
  J. Roberson, T. Mittleider, N. Cameron-Blake, P. Gibbons, B. Cappello, J. Ketjis, S. Rohleder ................................................................. 397
• Determination of the milk pharmacokinetics and depletion of milk residues following intramammary administration of cepaparin sodium in lactating dairy goats
  K. P. Hayman, L. L. Timms, J. P. Mochel, P. J. Plummer, P. J. Garden ................................................................. 398
• A comparison study of common concerns and diseases of the small ruminant producer
  J. Roberson, T. Mittleider, N. Cameron-Blake, P. Gibbons, B. Cappiello, T. Wilson, R. Larson, K. Dubois ................................................................. 399
