Plan to attend the
51st ANNUAL CONFERENCE
Phoenix, Arizona
September 13-15, 2018
Moraxella bovoculi Bacterin

World’s First Commercially Available Moraxella bovoculi Pinkeye Preventative!

• 8 Different M. bovoculi Isolates
• Cost Effective for All Cattle Herds
• Proven Safety Record
• More Convenient than Autogenous Programs

Addison Biological Laboratory, Inc. announces the approval of the world’s first commercial Moraxella bovoculi vaccine for the prevention of pinkeye in cattle. This USDA conditionally licensed product is the first of this kind. Previously the only method of prevention against Moraxella bovoculi was autogenous services. This vaccine signifies a breakthrough in convenience for the large number of veterinarians and herd owners battling the challenging problem of pinkeye caused by Moraxella bovoculi. This product license is conditional; efficacy and potency have not been fully demonstrated.

From the LEADERS in pinkeye prevention!

THE BOVINE PRACTITIONER is the official publication of The American Association of Bovine Practitioners, published in the spring and summer annually. It serves as a communication medium between bovine practitioner organizations around the world. All manuscripts and communications must be presented in English. Beginning in 2017, THE BOVINE PRACTITIONER is an open access journal following a 6-month post-publication embargo to allow AABP members and veterinary medical libraries first access.

Copies of THE BOVINE PRACTITIONER are available to non-members for $30.00 per copy for domestic destinations, or $35.00 for international addresses. Contact editor for details.
Articles in *The Bovine Practitioner* have been reviewed by three Editorial Review Board members. Reviewers for 2017 included:

Enroflox® 100  
(enrofloxacin 100 mg/mL)
- Same Active Ingredient as Baytril® 100 Injection
- Available in 100 mL, 250 mL and Now in 500 mL Bottles

Norfenicol® Injection  
(florfenicol 300 mg/mL)
- Same Active Ingredient as Nuflor® Injectable Solution
- Less Viscous and More Syringeable Than Nuflor®
- Plastic Bottles Eliminate Breakage and Product Loss
- Available in 100 mL, 250 mL and 500 mL Bottles

300 PRO LA®  
(oxytetracycline 300 mg/mL)
- Economical Per Dose Costs
- Available in 100 mL, 250 mL and 500 mL Bottles

Hexasol® Injection  
(oxytetracycline 300 mg and flunixin 20 mg/mL)
- Unique Combination of oxytetracycline and flunixin
- Available in 250 mL and 500 mL Bottles

Table of Contents

The effect of calving assistance and supplementation of colostrum with sodium bicarbonate on newborn calf vigor, success of passive transfer, health, and growth of dairy calves
Christine F. Murray-Kerr, Vivianne Bielemann, Sam M. Deelen, Ken E. Leslie ................................................................. 129

Factors influencing dairy veterinarian necropsy practices and their use of diagnostic laboratories
Sierra Salopek, Danielle Nelson, Craig McConnel, Dale A. Moore ................................................................................ 140

Case report: Detection and management of bovine viral diarrhea virus type 1b in a large dairy herd
Elizabeth A. Cox, Julia F. Ridpath, Shollie M. Falkenberg ......................................................................................... 153

Prevalence of respiratory viruses and *Mycoplasma bovis* in U.S. cattle and variability among herds of origin, production systems and season of year

Changes in the rates of field isolation and antimicrobial susceptibility of bacterial pathogens collected from fall-placed feedlot steers between arrival at the feedlot and 90 to 120 days on feed
Nathan E.N. Erickson, Musangu Ngeleka, Brian V. Lubbers, Anatoliy Trokhymchuk ........................................................................ 165

Effect of water restriction on performance, hematology, and antibody responses in parenteral or intranasal modified-live viral vaccinated beef calves
Emily L. Kaufman, John M. Davidson, Paul A. Beck, Shelby L. Roberts, Heather D. Hughes, John T. Richeson ................................ 174

Comparison of gamithromycin and tildipirosin for metaphylaxis treatment of winter-placed feedlot calves for control of bovine respiratory disease
Joyce Van Donkersgoed, Steve Hendrick, Timothy Nickel .............................................................................................. 184

Survey of treatment practices on Midwest dairy farms
A.M. Schuler, C. Rice, P. J. Gorden ................................................................................................................................. 190

Evidence in support of veterinary involvement in antimicrobial stewardship training programs in the dairy industry: A preliminary study
Chelsey R. Ramirez, Sarah E. Dumas, Katharine L. Schlist, Dennis D. French, Elena Bichi, Beatriz Riet Correa Rivero, Brian M. Aldridge, James F. Lowe .................................................... 200

Prevalence and associated factors of injury in bovine practitioners in the United States and Canada
William E. Sander, Eran A. Raizman, C. Scott Humphrey, April Johnson .................................................................................. 205

A survey of veterinary student exposure to and performance of clinical skills necessary for success in beef cattle veterinary practice and the relationship to the supply, demand, and value of proper training as beef cattle veterinarians
