FRONT COVER
Cassowaries are downy and delightful in their juvenile plumage but they grow into large, heavy birds five feet tall. They are naturally shy birds but can become extremely aggressive and dangerous. Mickey Olson’s Cassowary attacked a worker riding a tractor-type mower. When the man escaped, the bird rendered great damage to the machine.

Be sure to attend the A.F.A. Convention in Scottsdale, Arizona, where you can see Mickey’s monster birds as well as many other rare and beautiful sights.

BACK COVER
Pair of Mearns’ Quail, a very attractive North American bird. See article on page 12.
