Mission and Purpose of the AFA

The mission and purpose of AFA is to promote the advancement of aviculture through educational programs that enable better husbandry, management, and living conditions for exotic birds; promote avian research and conservation of exotic birds; keep our members aware of legislative issues that affect aviculture and aviculturists and keep legislators aware of the need for fair and equitable regulations.

The goal of AFA is to insure long-term, selfsustaining populations of exotic birds both in captivity and in the wild.
